University of Central Florida

Department of Management

What is needed from internship organization:

- 1. A detailed description of the activities and professional/management educational experiences that will characterize the Student Intern's employment during the semester.
- 2. An overall evaluation of the Student Intern's performance.
- 3. Provision of enough work to enable the student to complete 300 hours of service by the end of the semester. Approximately 18-20 hours a week.

The participating internship organization is responsible for providing the Student Intern with challenging experiences, which will allow the intern to use his/her academic management knowledge and to gain valuable and practical experiences while working amongst management professionals. It is recognized that many jobs will require interns to complete some menial tasks, (stuffing envelopes, filing, answering phones, clipping newspapers, etc.) It is also recognized that these jobs offer little educational reward and so the assignment of such activities must be limited to no more than 20% of the entire job description.

Summer Semester

Interns may begin work as early as May 1st, and may continue working through the semester's end date. The Internship form should be submitted before the start of the summer semester.
